

OPERATIONAL DEVELOPMENT SITE

Overview

ABOUT US

Shoreham Port is a thriving commercial Trust port situated on the south coast with excellent access to London and the surrounding areas. Certified as an EcoPort for the last 8 years, our Port is amongst the most sustainable in the UK.

OPPORTUNITY

The site offers an opportunity for a customer who has a marine and land requirement within the south coast region. The location has considerable potential to develop renewable energy generation capability (solar and onshore wind). Ideal for importing and exporting a range of cargoes or specialist projects.

FURTHER INFORMATION

Maximum berth dimensions:

- Overall length of vessel: 103 metres
- Overall beam restrictions: 16.4 metres

Land available

Up to 6 acres available to lease including undercover shed space if desired

Additional services

We offer a full range of services including stevedoring, ships agency, customs clearance, freight forwarding, haulage and dry dock

Accessibility

24/7 site accessibility, plus connectivity to road and rail
