

# Masterplan 2022

1. We will ensure everyone gets home safe and well.
2. We will continue to welcome leisure, commercial and fishing users to our growing Trust Port.
3. Investment in our infrastructure and renewable energy generation will continue, growing capability and capacity for the benefit of all stakeholders.
4. Cargo operations will be centred on the south side of the Port, offering industry leading efficiency and service levels to a diverse range of customers and tenants.
5. Development of the estate will continue, creating a unique and vibrant destination for the community, businesses and tourists.
6. We will innovate through technology to improve efficiency, growing revenue through continuously evolving our services.
7. We will collaborate with our neighbours, charities, educational partners and local authorities to support a prosperous, sustainable local community.
8. We will enable an inspiring culture, growing talent and skills in an empowering, flexible and modern workplace.
9. The diversity of our teams will increasingly reflect society.
10. We will set challenging goals to reduce our environmental footprint and publish our progress annually. As a leading EcoPort we will work continuously to reduce our impact.
