COVID-19: COMMUNITY NOTICE

Shoreham Port continues to adhere to government advice on social distancing. All pedestrians and cyclists visiting the Port are reminded of the following:

1

HARBOUR ARMS CLOSED

We have made the decision to close the Harbour Arms to our fishing community. We are aware that the area is used for a number of social gatherings which are not currently permitted.

2

ESSENTIAL TRAVEL ONLY

On warm days pedestrians/cyclists are congregating on the locks. Given social distancing requirements we invite the public to think before travelling - if it is essential then please ensure you wait until the route is clear before crossing the lock gates.

3

LEISURE BOAT USERS

Follow the government advice and stay at home - essential travel only. If you get into difficulty and have to call 999 for the coastguard, you will be putting frontline emergency responders at risk and under additional pressure.

We invite you to join us from home today at 8pm to take part in a national round of applause to thank our dedicated NHS workers and volunteers. Find out how to take part [here](#).
